

Luke Moffat's CV

Luke Moffat

Software Developer & Data Science Student

moffatluke.com | lukebmoffat@gmail.com | GitHub | Download PDF

Currently

Studying Computer Science / Software Engineering at BYU-Idaho, with an emphasis on data science and full-stack development. Recently accepted into **Sandbox**, BYU-Idaho's student startup accelerator, starting Fall 2026.

Specialized in

SQL and relational databases, full-stack web development (React, Express, Flask), and growing skill in Python data science tooling (Polars, pandas).

Interests

Data cleansing and analysis, building developer tools, and applied machine learning.

Education

Expected [add graduation term/year] **BYU-Idaho** — Software Engineering / Computer Science

Current coursework: Applied Programming, Data Science Programming (Python/Polars), Programming with Data Structures, SQL, Old Testament

- Relevant coursework: CSE 310 (Applied Programming), CSE 212 (Data Structures), DS 250 (Data Science Programming), ITM 220 (SQL)

Projects

2026 **Cloud Database CRM** — Flask + Firestore finance/CRM dashboard, deployed with a public read-only demo

2026 **Lawn Hunters Admin Panel** — Full-stack React + Express admin panel backed by a MySQL database

2026 **Obsidian Dev Tracker** — Custom Obsidian plugin visualizing GitHub contributions and Claude Code sessions as heatmaps

2026 **Startup Idea Validator** — Sprint project for validating early-stage startup concepts
